FORMER RESIDENT VISITING IN THE CITY

H. S. Joy of Burdette, Col., arrived in Maryville Thursday on a business trip. Mr. Joy has been in Colorado for the past two years. He says crops are looking fine and that he is well pleased with the country. Mr. Joy was recently appointed assessor of Washington county, Colorado, in which county Burdette is located.

W. H. Gilbert went to St. Joseph Friday morning to attend the conference of the Church of the Brethren.

TO DEDICATE ROAD ON JULY FOURTH IN THIS CITY

(Bedford Times-Republican.)

Soon the signboards will be in place along the "Saints' Highway," the best road between St. Joe and St. Paul. This will renew the enthusiasm all along the line and serve to make everybody get busy. It took some time to organize the south end, and those at the north were inclined to think there was not much doing along the great highway. But if they had been attending the meetings that were being held in Missouri they would have been convinced that there was very much doing.

The Iowans went into Missouri with some fear lest the good roads fever had not reached the proper heat for striking, but they were more than ready, and their enthusiasm has reached if not surpassed that of any meeting ever held in Iowa.

Maryville is preparing to have an automobile Fourth of July celebration, invite all the automobilists from along the "Saints' Highway" and dedicate the road on that day. It is anticipated that there will be a large attendance from St. Joseph on this occasion.

It is probable that there will be a great many at this celebration from Bedford, as there will be no celebration here, and there are two magnificent highways leading into Maryville from Bedford now, one leading through the towns and one by way of the ridge, which at present is said to be one of the best stretches of road on the highway.

G. A. R. AND W. R. C. EXTENDS THANKS

The thanks of the G. A. R. and W. R. C. are most heartily extended to all who assisted in the ceremonies on Memorial Sunday and Decoration day, which inculcate love of country and gratitude to the men whose devotion has saved it undivided.

The fires of patriotism in Maryville burned with renewed ardor on the anniversaries celebrated the past week. The G. A. R. and W. R. C. attended services in the First Methodist Episcopal church on Memorial Sunday and listened to a most eloquent and patriotic discourse preached by the pastor, Dr. Ford. The music rendered by the organist of the church, Professor Landon, a quartet composed of Miss Verna Felter, Miss Nellie Wray, Harry Mutz and Lona Perrin, and a fine solo by Mrs. Fred P. Robinson added greatly to the interest of the occasion, and every member of the large congregation must have felt it was good to be there.

The graves of the soldiers and members of the W. R. C. in the various cemeteries were decorated on the morning of May 30, Memorial day. At 2:30 p. m. a procession was formed on Main street in the following order: Band; Company F, Fourth regiment, N. G. M.; G. A. R.; W. R. C.; Boy Scouts, flower girls.

At the court house a hollow square was formed around the cenotaph, and with the beautiful ritual of the G. A. R., assisted by the flower girls, marching to the music of the band, the mound representing the unknown dead was decorated. In the court house a beautiful recitation was given by Miss Glen Hotchkiss, and an address by an old comrade, Rev. Welton, of Skidmore.

TO HAVE A MEETING

OF VOTERS TO NOMINATE A CANDIDATE FOR POLICE JUDGE.

TO BE IN COURT HOUSE

On Saturday Evening at 8 O'Clock—Call Issued by the Non-Partisan Committee.

A mass meeting has been called for Saturday evening in the court house to nominate a candidate for police judge to be voted on Tuesday, June 6. The call was issued by Ed C. Curfman, chairman, and W. G. Sawyers, secretary, of the Non-Partisan Alliance.

The meeting will be held at 8 o'clock. Three candidates have been mentioned for the office, 'Squire J. W. Morris, 'Squire W. L. Johnson and E. H. Bainum. Some other names have also been mentioned, but it is not known whether they are candidates.

The election is held to fill a vacancy, as the late police judge, Samuel B. Arnold, died a few weeks ago.

LOOKS AS IF WE WILL GET DRINKING FOUNTAIN

Mrs. E. G. Orear received a letter Thursday from Lewis M. Seaver of New York City, secretary of the National Humane Alliance, saying that he wished to have the plans of the cement water trough that the city has installed on East First street, and whether it is being kept in good condition. Mr. Seaver states that if the city kept their drinking troughs in good shape Maryville will secure her fountain from the National Alliance in a short time.

The plans of the water trough will be sent to Mr. Seaver at once. The city is keeping these places clean and in good shape, and it is thought at an early day Maryville will get one of those fine fountains from the national society.

PLANS ARE TALKED OF FOR DOING MORE WORK

Generally fair tonight and Saturday.

Diamonds are as staple as wheat

More so, in fact. If you took $25 or $50 or $100 out of the bank and bought a diamond with it—it isn't like spending the money on another article, because a diamond will never depreciate in value.

And all the time you wear it, it is earning you recognition, and promoting a feeling of stability among your friends, which is a pretty good thing to have done these commercial days.

Let us see if you and we can't make a deal in Diamonds.

Just now we can give either a lady or a gentleman some unusual chances to secure this desirable gem at advantageous prices at

LOAFING.

(Emporia Gazette.)

The Gazette recently reprinted a sensible article from a Linn county paper, calling the attention of school boys and girls to the fact that the habit of loafing, which is easily contracted during the vacations, is a demoralizing one. A truer word was never spoken, and it may be hoped that the young people will give it their serious consideration.

Vacations are considered necessary by the majority of people, although there is room for doubt whether they really are necessary. The man who works steadily, and who enjoys his work, usually finds a vacation a bore. When he has been out of the harness a day or two he wants to get back into it again; and when he does get back, after a week or two of "rest," he can't do his work half so well for a while as he did before the vacation. He feels the enervating effects of idleness every hour of the day, and it often takes a considerable time to get back his old enthusiasm and efficiency. The longer his vacation, the more incapable he feels when he returns to his work. He may pretend that he is refreshed and invigorated, but if he confessed the truth he would say that his vacation merely spoiled his appetite for work.

Young people should have plenty of amusement and exercise, but they should never allow a day to pass without having done something useful and profitable. The boy who spends a whole summer fishing or playing ball or otherwise diverting himself is doing himself a serious injury, and the effects will handicap him as long as he lives. A passionate fondness for sport or play, developed in boyhood, will be likely to make him trifling in manhood, and he will grow up with the idea that the chief end of man is recreation and fun.

Tens of thousands of old men who are digging out a miserable living by bitter toil owe their wretched lot to the fact that they contracted the vacation habit when they were young. Experiments in loafing convinced them that work is the great evil of this world, whereas it is the great blessing. The man who does his work conscientiously and finds pleasure in it is the most contented on earth. Aside from all material rewards, he enjoys a serenity of soul that is more precious than gold and silver. If he learns in his youth to look upon labor as a punishment, he will never do his work, as a man, with pride and pleasure.

"Cousin Bess," Airdome tonight.

Left for Oklahoma.

Miss Antoinette Craig of the Washington school faculty, left Thursday for Davenport, Okla., to spend the summer with her parents, Mr. and Mrs. B. F. Craig. She will stop in Kansas City for a few days to visit the family of her uncle, Judge J. W. Thompson.

"Cousin Bess," Airdome tonight.

Will Attend University.

Miss Eva Montgomery of the Washington school faculty, will attend the summer school of the state university at Columbia. She will spend a few days at the home of her sister, Mrs. S. P. Huston, south of Maryville, before going to Columbia.

PREPARE FOR ADVENT OF FLIES

A Savanna, Ill., club woman recently read an instructive paper before her club that may be well for us to read at this time and get ready for the advent of the pesty fly. Business men, as well as housekeepers, should prepare to meet this great summer pest and give him such a reception that will exterminate him before he gets a start. Here is what the Savanna woman said:

Don't allow flies in your house.

Don't permit them near your food—especially milk.

Don't buy foodstuffs wrere flies are tolerated.

Don't eat where flies have access to the food.

Flies are the most dangerous insects known to man.

Flies are known to be carriers of min. They are born in filth, live on filth and carry filth around with them. They are maggots before they are flies.

Flies are known to be carriers of germs. They leave some of these germs wherever they light.

Flies may infect the goods you eat. They come to your kitchen or your dining table, fresh from the privey vault, from the garbage box, from the manure pile, from the cuspidor, from decaying animal or vegetable matter, or from the contagious sick room with this sort of filth on their feet and bodies, and you do swallow filth from privey vaults, etc., if you eat food that has come in contact with flies.

Flies may infect you with tuberculosis, typhoid fever, scarlet fever, diphtheria and other infectious diseases. They have the habit of feasting on tuberculosis sputum and others of those sick with infectious diseases, and then going direct to your food, to your drink, to the lips of your sleeping child, or perhaps to a small open wound on your hands or face. The germs deposited in milk multiply very fast; therefore milk should never be exposed to flies.

To Get Rid of Flies.

Screen all food, especially milk. Do it early before fly time and keep screens up until snow falls.

Screen all food, especially milk.

Screen the baby's bed and keep flies away from its bottle.

Keep flies away from the sick, especially those ill with typhoid fever, scarlet fever, diptheria and tuberculosis. Screen the patient's bed and kill every fly that enters the sick room. Immediately disinfect and dispose of all discharges.

Catch and poison the flies as fast as they appear.

Place this fly poison in saucers throughout the house: Two teaspoonfuls of formaldehyde in a pint of water, sweetened with sugar.

To quickly clean rooms of flies, burn pyrethrum powder. Sprinkle the powder on live coal carried on a metal shovel. The fumes stun the flies. They must then be swept up and destroyed. Best results are obtained by darkening the room, allowing one ray of light to enter at the edge of the window shade. Flies, in attempting to escape the fumes, will seek the ray of light at the window. This simplifies the collection.

Eliminate Breeding Places of Flies.

Sprinkle kerosene over garbage and contents of privy vaults. Keep garbage receptacles tightly covered; clean the cans every day, the boxes ground around the garbage boxes at least once every week. Keep the ground around the garbage boxes clean.

Keep manure in screened pit or a tightly covered vault. The manure should be removed every week at least.

Burn all refuse such as old bedding, paper, straw, etc.

Pour kerosene into the drains and keep the sewerage system in good order by repairing all the leaks immediately.

Clean cuspidors every day. Keep solution of carbolic acid in them all the time. Get rid of sawdust boxes used as cuspidors as they are unsanitary.

Permit no dirt to accumulate in corners, behind doors, back of radiators, etc.

Flies in the home indicate a careless housekeeper. Remember no dirt, no flies.

If there is a nuisance in the neighborhood notify the department of health.

Sold by druggists everywhere and in Maryville by our authorized agent, Charles Love, druggist.

Crop Conditions Excellent--- Much Rain

More rain has fallen throughout Central and Southern Alberta during the past thirty-six hours than fell during the whole of the growing season last year. The precipitation of moisture has been general over the entire province from the international boundary line to Edmonton, and from Maple Creek to the Rocky mountains. As a result of the rain the entire province is covered with a green mantle of young grain and grass.

C. P. R. Hotel in Calgary to Be a Magnificent Structure—Detailed plans for the million dollar C. P. R. hotel were presented to Building Inspector Harrison this morning, and show that the hotel will be one of the finest in the west. Alberta wheat lands are worth $150.00 per acre, say O. W. Tinkbine and E. C. Tinkbine of Iowa, who invested $14,000 in agricultural implements this year to work their farm in the C. P. R. block. They make their estimate on the basis of financial returns from their wheat crop. They are well known capitalists of Iowa. Recently they purchased nine sections of land in the central section of the C. P. R. block, and their steam plows have been working night and day to break the land. Practically the whole farm is sown with wheat this spring. They are very enthusiastic about farm prospects in Alberta and assert that they have not a foot of land for sale at any price.

Average Twenty Buildings a Day—Buildings are now being erected in Calgary at an average of twenty buildings a day. If these figures are correct the year of 1911 should close with 6,000 new buildings having been erected, and this after making allowance for Sundays. The erection of so many buildings thus far this year and during previous seasons also has apparently had no effect whatever in lessening the demand for houses, and there are, as a matter of actual fact, no vacant houses in the city, except those which are very small and very old. The reason lies not in the city but in the country. Calgary is growing because it is the center of the richest agricultural area in the Dominion. Around here will be settled the most intense rural population in Canada. Within the influence of her trade will soon be established the wealthiest and most progressive community of the age. Write for free book now. First come, first served; earliest arrival, biggest value; quickest results. Land sold for one-tenth cash, balance on ten years' time or crop payment plan. Price, $10 per acre and up. For further information address or phone

CAUCUS ADOPTS WOOL SCHEDULE

House Democrats Agree to Vote for Underwood Bill.

20 PER CENT DUTY PLANNED.

Free Wool Advocates Accept Revenue Tariff on Raw Product, but Policy Not Given Up—Resolution Adopted Agreed Upon by Bryan Faction.

Washington, June 2.—The proposed revision of the wool tariff—the Underwood bill—was unamiuosly approved by a full Democratic caucus at midnight, twelve hours after it had been made public by the ways and means committee. Its indorsement followed some rapid maneuvering by the Democratic house leaders, who devised a scheme which effectively disposed of the opposition of the free wool advocates.

Through a resolution which leaves the Democratic party open in the future to renew its advocacy of free trade in raw wool, but which commits all Democrats to the support of the present bill as a revenue measure, the divergent interests were brought together in the caucus shortly before midnight and the final vote on the proposal of the Underwood bill was made unanimous.

The resolution agreed on in a conference of the free raw wool advocates was introduced in the caucus by Representative Kitchin (N. C.), who had

advocated free raw wool. His resolution declared that the support of a duty on raw wool should not be construed as an abandonment of the Democratic policy of free wool. The need for a duty, the resolution stated, was due to Republican extravagances, which made necessary large revenue.

Speaker Clark took the floor immediately and supported the resolution, which had been framed in the conference participated in by himself and Representatives Burleson (Tex.), James (Ky.), Fitzgerald (N. Y.) and Kitchin (N. C.). The resolution was then unanimously adopted by the caucus.

Advocates of free woil, backed by William J. Bryan, offered amendments putting wool immediately on the free list, or proposing a gradual reduction that would abolish the entire duty within five years. While direct reference to Mr. Bryan by name was not made by Chairman Underwood or others who spoke in favor of the 20 per cent duty, they replied to the free wool demands by pointing out the absolute necessity for a small duty on raw wool.

The proposed bill makes reductions of from one-half to two-thirds in all wool duties. Raw wool itself, which was free in previous Democratic tariff bills, is given a duty of 20 per cent ad valorem, equivalent to from 3 to 5 cents a pound.

The proposed wool tariff represents a reduction of only $1,350,000 in the revenue of the government, according to a statement presented to the caucus by Chairman Underwood.

FLAT DENIAL BY JUDGE GARY

Head of Steel Trust Says There Is No World-Wide Combine.

Washington, June 2.—Elbert H. Gary, chairman of the board of directors of the United States Steel corporation flatly denied any knowledge of the proposed formation of a combination to control the steel trade of the world. Mr. Gary appeared before the house committee investigating the steel trust and declared that he had come to Washington to frankly tell all he knew of the big corporation.

The disclaimor to the world-wide combination, was called out by a statement by Chairman Stanley that Mr. Gary was accredited with being the directing genius of such a trust. Mr. Stanley intimated that these reports had had much to do with the inquiry started by the house of representatives.

Sir Henry King Is Unseated.

London, June 2.—Sir Henry Seymour King, who in the last general election was returned to the conservative seat in the commons for the central district of Hull, was unseated. The judges found Sir Henry guilty of lavishingly treating his constituents.

REMEDY FOUND FOR DANDELION PEST

Agriculturists who have made a study of killing off weeds in yards, have been filling magazines with suggestions to people of how to rid their yards of the yellow dandelion.

On a North Dixon, Ill., college campus, where the weed was ruining the lawn two weeks before blossoming time, the lawn was thoroughly sprayed with iron sulphate, and since then the dandelion has disappeared.

Forty gallons of a 4 per cent solution of sulphate of copper, or forty gallons of 15 per cent solution of sulphate of iron to an acre of the infested ground will destroy the weed.

In parts of the United States where this method has been tried the weed has disappeared and the grass grown thick and velvety.

Dr. Ewart, a government expert on the subject, who has been trying experiments in the east, declares the main thing is for people to work together as one lawn in a neighborhood may infest the whole block when the flowers go to seed and blow again.

Boy Scout Wins Doubter.

Persons who doubt the efficiency of the Boy Scout principles can easily learn how badly they are mistaken. A few persons are inclined to doubt that the Boy Scout movement tends to make a boy more courteous, and above all to teach him not to take tips. Ralph A. Feltman, a scout master of New York, tells about a New England friend who refused to believe that a Boy Scout would not take a tip after having done a favor. "My friend," says Feltman, "was down in the city the other day and met a Boy Scout, and he asked him what he was. The young fellow told him he was a scout. He said, 'Would you mind watching my suit case a few minutes, while I attend to a little errand.' He wanted to try the experiment to see if the boy would really stand taking a tip. He returned in a few minutes and handed the boy a quarter and thanked him for his services. The young lad said, 'No, thank you, sir. I never take a thing for helping other people; I am a Boy Scout.' My young English friend is now convinced."

Miss Maud Nash, a student of St. Joseph's academy at Clyde visited in the city Friday with her sister, Sister Eleanor at St. Francis hospital.

Mrs. George Ingerson of this city and daughter, Mrs. Ernest Bainum, and little son, George Ellis, of Pickering, went to Stanberry Friday to visit another daughter of Mrs. Ingerson, Mrs. Edward Green.

Mrs. O. F. Wilson and her niece, Miss Dorothy Moore of Burlington Junction, spent Friday in Maryville with friends, and also visited Mrs. Wilson's son, Harry Wilson, a State Normal student.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

MEN OLD AT 35.

One Million Baldheads Who Thought Dandruff Wasn't Dangerous.

In the United States and Canada today there are nearly a million men who at 35 can be put in the baldhead class.

When these men had thick, vigorous hair, dandruff made its appearance.

That was the time to attack the enemy of mankind—the persistent little devil called a dandruff microbe, or germ that burrows deep down into the hair root and saps it of the vitality that is so essential to the hair.

Young men or any man, for that matter, beware of the dandruff germ; it is not a theory, but an actual condition that confronts you. That dandruff is caused by a germ is proven beyond question. That a germ destroys the hair root is today a matter of common knowledge.

The Koch Pharmacy has the remedy that kills the dandruff germs. They guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. It is called Parisian Sage and can be obtained at druggists in every town in America—ask them for it. The girl with the Auburn hair is on every bottle of Parisian Sage.

Home Builders Are Recognized

in every community as men of integrity and stability. It's proof that they believe in themselves and the future of their town. And every home that is erected in a community makes it just that much better place in which to live and invest your money. To most homebuilders it means something to live for—a real object in life—an acquisition that once attained is a joy forever. That NOW IS A GOOD TIME TO BUILD goes without question—money is plentiful for legitimate investment — Labor is within reach and our stock of lumber was never more complete.

A Good Show.

The Lee Moses Stock company put on an excellent show at the Airdome last night, and pleased every one who was there. A good crowd was present, regardless of the fact that the previous show was hardly up to expectations and they had been disappointed the night before. The play entitled "In the Trail of the Serpent" was rendered in excellent shape, and Mock Sad Alli, the famous magician, was there with the goods. The performance was said by many to be among the best they ever saw in the city, and the pleasure of enjoying it in the open air brought forth much favorable comment.

The bill tonight is a new one entitled "Cousin Bess." It is a melodrama of the first class and has pleased immensely in Council Bluffs, where the company has been playing. Mock Sad Alli, the magician, better and more familiarly known as "Moxi," will have an entire new line of tricks; Dick Disney, comedian, will make you laugh with new jokes, and you will miss a treat if you do not come to the airdome tonight. Tonight's crowd is expected to tax the seating capacity, and arrangements are already made for an additional 1,200 seats for the coming week. Gates open at 7:30. Curtain at 8:30. Prices 10 and 20 cents.

Bad at night when bedtime comes,

Just as bad in the morning.

Ever try Doan's Kidney Pills for it?

Know they cure backache—cure every kidney ill?

If you don't, some Maryville people do.

Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

Free Liver Remedy

It is well to stop a physical ailment at the first signs of its approach, and that is especially true of liver trouble, which can eventually give rise to so many serious complications. Many have liver trouble and imagine it is indigestion, and hence take the wrong remedy.

When the liver does not store up sufficient gastric juices it becomes sluggish, and in this way disturbs the stomach and bowels, with which it is supposed to work in harmony. Then comes the sallow complexion, the pimply face, the dull pain in the forehead, the thinning of the blood, etc. A very quick and sensible way to stop the trouble as well as to cure it is by the use of Dr. Caldwell's Syrup Pepsin, which contains ingredients especially intended to promote the activity of the liver.

Among the many thousands who have written the doctor about the results achieved with his remedy, and who are glad to make the facts public so that others can help themselves, are Mr. Jas. Kennedy, St. Louis, Mo.; Mrs. S. A. La Rue of Smith's Grove, Ky., and many others.

These, like thousands of others, started the use of Syrup Pepsin with a sample. If you will send your name and address you can also obtain a free trial bottle. This will prove to you that liver trouble is promptly cured with this remedy or money will be refunded. Having tried it you can then buy it in the regular way of your druggist at fifty cents and one dollar a bottle, and the latter is sufficient for an entire family.

This remedy is a vast improvement over cathartic tablets and salts, which only do good for the time being. Syrup Pepsin is permanent in its results, is pleasant to take and does not gripe. It is especially good for all those who cannot stand a violent purgative.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, 509 Caldwell building, Monticello, Ill.

ROOSEVELT ON TRUST DECISIONS

Former President Says More Regulation is Needed.

ANTI-TRUST ACT IS DEFECTIVE

Declares Any Effort to Change Law Would Result in Delays, Practically Playing Into Hands of Corporations. Advises Strong Regulation.

New York, June 2.—Theodore Roosevelt has an article on the Standard Oil decision in the Outlook. It says in part:

"As construed by the supreme court the anti-trust law accomplishes a certain amount of good, and it has been a good thing to obtain the decision that had been obtained against the Standard Oil company. But as a means of effectually grappling on behalf of the whole people with the problem created by what are commonly called trusts—that is, of enormous combinations of corporate capital engaged in interstate business—the anti-trust law is radically and vitally defective and any effort to strengthen it would be worse than futile, and would result only in prolonging the time during which the corporations will escape control of the kind demanded in the interests of the people.

"The anti-trust law was framed on the theory that it was possible to turn back the wheels of progress in industrialism, and in an age of combination to put a stop to the combinations under which business was carried on. While, as I have said, the anti-trust law as now construed does accomplish a certain amount of good, it was out of the question that framed as it was in such a spirit and with such a purpose, it could achieve in any but the smallest degree what its framers hoped, and any effort to achieve this purpose simply by making the law more stringent will result either in nothing or changing the situation for the worse.

More Regulation Needed.

"What is urgently needed is the enactment of drastic and far-reaching legislation which shall put the great interstate business corporations of the type of the Standard Oil company, the sugar trust, the steel trust and the like at least as completely under the control and regulation of the government in each and every respect as the interstate railroads are now put.

"To break up the Standard Oil company as the recent decision has broken it up, does a certain amount of good; but it does not do anything like the amount of good that would be achieved from the standpoint of the public if the proper governmental body were given the same supervision and control over it as the interstate commerce commission has established over certain of the railroads of the country.

"It may well be that in the end government control of these great interstate corporations may have to go much further than is indicated by the present government control over the railways, but, in any event, the only possible satisfactory method of dealing with these great corporations of a monopolistic trend which are not railways is to follow the lines along which the nation has gone in dealing with those of them which are railways, altering and developing the policy as conditions and events shall justify. Our prime object must be to have the regulation accomplished by continuous administrative action and not by necessarily intermittent lawsuits."

Cadillac covers greatest mileage in 24 hours ever made by an American motor car

NIGHT LETTER

THE WESTERN UNION TELEGRAPH CO.

INCORPORATED

25,000 OFFICES IN AMERICA CABLE SERVICE TO ALL THE WORLD

Los Angeles, Cal., April 9, 1911

Cadillac Motor Car Co., Detroit, Mich.

Cadillac today made greatest mileage ever made by an American car in a 24-hour race, beating former world's records by 195 miles. Covered 1448 miles, an average of 60 1-3 miles an hour for 24 hours of continual running. Second to and only 43 miles behind special built $7,000 Fiat racing car. Although the race was a free-for-all, the Cadillac entered was a strictly stock chassis to the very smallest detail. Never missed a shot or made a mechanical repair. Lost 31 minutes changing tires, changing crews, replenishing fuel and replacing broken lamp. Car at end of race in perfect condition. Ten starters, five finished. Cadillac 229 miles ahead of nearest following competitor and 334 miles ahead world's record for 30 horsepower cars. This proves the Cadillac beyond all doubt the American long distance champion. Don Lee

This great record at Los Angeles is merely an incidental result of Cadillac principles. The Cadillac is not built to make records; but it makes records because of the way it is built. The Cadillac build every car for every day endurance, and achievements like the one just recorded follow as a natural sequence. Any Cadillac, under the same circumstances, would have done as well. We have car in garage for demonstration. (Save this ad. We'll tell you something else later).

Tickets will be provided for said election in the following form:

(1) "For increase of debt—Yes."

(2) "For increase of debt—No."

The former of which shall be taken as a vote assenting to such increase of debt, and the latter as dissenting therefrom, all as more particularly set out above in this notice and in said ordinance.

If the returns of said election shall show that two-thirds of the legal voters of said city voting at said special election so held, shall have voted assent to the increase of debt as hereinbefore set out, then the mayor and board of aldermen shall have the authority to cause said city hall to be erected and furnished, as aforesaid, and to issue bonds to pay the cost thereof in the amount aforesaid, of such denomination, bearing such rate of interest and payable at such time as is provided by law; and also to provide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and to constitute a sinking fund for the payment of the principal thereof at maturity.

Said polling places will be open from 7 o'clock in the morning and continue them open until 6 o'clock in the evening, or until sunset if the sun shall set later than 6 o'clock in the evening on said day.

A. S. ROBEY, Mayor.

Attest: C. L. GANN, City Clerk.

SENATE REOPENS LORIMER CASE

Upper House Votes for Renewal of Inquiry, 48 to 20.

ELECTIONS COMMITTEE TO ACT

Regular Body of Upper House Will Take Charge—Senator Brown Wants Lorimer Turned Out Without Further Investigation.

Washington, June 2.—Senator Lorimer (Ill.) faces another investigation at the hands of his colleagues. The inquiry will be conducted by a subcommittee of the committee on privileges and elections, composed of four Republicans and four Democrats—four of whom voted for the conviction and four for the acquittal of the senator last session. The method selected is regarded as the latest thing in jury trials.

It took seven hours' debate to agree on the system and it was finally adopted by a vote of 48 to 20, being substituted for the plan urged by Senator LaFollette of turning the case over to five senators who were not members when the case was voted upon before and therefore were supposed to be unbiased.

Before the vote was taken, Senator Bristow, who favored the LaFollette plan, accused Senator Dillingham, chairman of the elections committee, of having capitulated in the interest of a Democratic scheme of turning the investigation over to a subcommittee. This charge was based upon the fact that the author of the resolution adopted was Senator Martin. Bristow also claimed that the old guard Republicans had formed an alliance with the Democrats and that they had placed the "mantle of Aldrich" upon the shoulders of Martin.

Elections Committee Scored.

That the committee on privileges and elections had shirked its duty in the former investigation was charged unreservedly by the supporters of the LaFollette resolution. Senator Lea (Tenn.) said he would no more turn the case over to the elections committee for another trial than he would submit to a second operation for appendicitis by a surgeon who had failed on the first operation to locate the appendix. Senator Kenyon (Ia.), recently assistant to the attorney general, intimated that the great trusts had busied themselves with the election of senators so as to influence the selection of United States district attorneys whose friendship might be useful in the case of prosecutions.

Speaking in support of the LaFollette resolution, Senator Owen (Okla.) said there would be no good reason for sending the case back to the old committee when there were twenty new men in the senate.

Bristow declared that in the former inquiry some of the members of the committee had tried to cover up the testimony instead of bringing it out. He advocated a new committee.

The defense of the Martin resolution was conducted by Senators Dillingham, Martin, Bacon, Stone and other senators from both the Republican and Democratic side of the chamber.

Most of the insurgent Republican senators voted against substituting the Martin resolution. Of the twenty negative votes, thirteen were cast by Republicans—Borah, Bourne, Bristow, Brown, Clapp, Crawford, Cummins, Dixon, Gronna, Kenyon, LaFollette, Perkins and Poindexter—and seven by Democrats—Davis, Hitchcock, Lea, Martine, Newlands, Owen and Pomerene.

The resolution adopted merely provides that the investigation shall be conducted by the elections committee. It was in connection with the understanding on the part of many senators that a bi-partisan and bi-Lorimer committee was to be named that brought out most of the criticism.

Senator Brown (Neb.) wants Senator Lorimer turned out of the senate without any further investigation. He introduced a resolution stating that evidence already taken proved conclusively that Lorimer was not entitled to his seat and there was no excuse for incurring the expense of another inquiry.

At his request Senator Brown's resolution was laid on the table with the announcement that he would call it up at the proper time and ask its adoption as a substitute for all other resolutions of inquiry which have been offered.

BUTTER AND EGGS PROBE

Charles B. Morrison to Take Evidence Against Chicago Board.

Chicago, June 2.—Vigorous prosecution of the government's suit to enjoin the Chicago butter and egg board from controlling prices of butter and eggs is expected to follow the recent decisions of the United States supreme court in the oil and tobacco trust cases. The first step was taken when Circuit Judge Kohlsaat, on motion of Federal District Attorney Sims, referred the case to Charles B. Morrison, who will take evidence.

Rebellious Arabs Capture Assyr.

Hodirda, Arabia, June 2.—The rebellious Arabs in Assyr have captured the capital, taking as prisoners 3,000 Turkish troops. They secured three batteries of artillery and a number of large guns.
